PROFESSIONAL SUMMARY

Cloud Solution Architect with 15+ years leading complex IT programs across financial services, insurance, government, and technology. Trusted advisor to C-suite executives. Known for rapidly building strong customer relationships. Enterprise architecture, cost optimization, and data-driven decision-making are core strengths. 9 certifications. Strong interpersonal skills, team player, and mentor. Passionate about cloud computing. Willing to travel.

CAREER HISTORY

2025 to Present

Lead / Cross Cloud Solution Architect

GLOBAL CLOUD PLATFORM VENDOR • Oslo

Technology strategy for strategic enterprise customers. Strategic accounts portfolio across regulated Nordic enterprises. Orchestrating v-teams across sales, engineering, and customer success. Known for building trust quickly with new customers and teams. Facilitating customer workshops (Well-Architected, AI Foundry, architecture design). Creating reference architectures and best practices. Spoke at NIC (94% approval, Level 300, live-streamed), internal events (50 to 100 in-person, 200+ virtual).

2024 to 2025

Senior Cloud Solution Architect

GLOBAL CLOUD PLATFORM VENDOR • Oslo

Technical pre-sales and consulting. Well-Architected assessments, reference architectures. Platform migrations for FSI and government. Drove platform adoption through consumption-based growth. Product engineering collaboration: field feedback, design reviews, roadmap influence.

2024

Senior Manager, Cloud Practice

EUROPEAN IT CONSULTANCY • Oslo

Led the Azure cloud practice. Carried forward the large European bank engagement, leading their technical transformation and driving consultant expansion sales.

2022 to 2024

Group Manager, Cloud Architecture

GLOBAL SYSTEMS INTEGRATOR • Oslo

SI Solution Architect handling partner-channel sales. Infrastructure lead, positioned for Nordics director role. Lead architect for a large European bank, driving their cloud migration. People manager and mentor, 48M+ NOK consultant portfolio, coordinating deliverables across cross-functional teams. Programs: CAF/ESLZ, IaC, security.

2020 to 2022

Cloud Solution Architect

NORDIC MANAGED SERVICES PROVIDER • Oslo

Customer relationship management, consulting. Cloud migration for mid-market and enterprise. Azure, hybrid cloud, multi-cloud. Cost optimization.

2011 to 2020

Senior Systems Consultant / TAM

NORWEGIAN SYSTEMS INTEGRATOR • Oslo

Systems engineering, technical account management. Datacenter-to-cloud migrations. Enterprise and distributed applications across Azure, M365, VMware, Citrix.

Security architecture, Global Secure Access, VPN migration
Landing Zone migrations, governance frameworks, GitHub adoption

CORE COMPETENCIES

Trusted Advisor • Executive Engagement • Enterprise Architecture • Azure Landing Zones (ALZ) • Cloud Adoption Framework • Well-Architected Framework • Solution Design • Technical Pre-Sales • Pre-Sales Engineering • Customer Success • Strategic • Operational Range • Architectural Strategy • Stakeholder Management • Technical Leadership • Cross-Functional Collaboration • Reference Architectures • Workshop Facilitation • Technical Evangelism • End-to-End Project Delivery • Open Knowledge Sharing • Holistic Solution Design • Mentorship

OPEN SOURCE

Azure Governance & Assessment

- **azure-analyzer** *[PowerShell]* — Bundled assessment runner that unifies azqr, PSRule, AzGovViz, and 135 ALZ graph queries into one portable JSON + HTML report

GitHub Runners & Private Networking

- **avm-ptn-cicd-agents-and-runners** *[Terraform]* — Official AVM pattern module for self-hosted ADO agents and GitHub runners with PAT and UAMI auth, no public IP egress

Terraform Platform Modules

- **terraform-azapi-aks-automatic** *[Terraform]* — AKS Automatic with ALZ Corp networking, BYO VNet, multiple ingress options (AGC/NGINX/Istio), managed identity everywhere

Other Tooling

- **linkedin-auto-poster** *(Python)* — RSS to LinkedIn pipeline, ingests tech feeds, scores relevance, drafts in your voice, publishes through a GitHub PR approval workflow
